Announcement

For the Year 1934

In sending out this small catalog with enclosures I am calling attention to the great variety of items which go to make up the stock to be found in my store. A Farmer's Seed and Supply Store coupled with the repair service rendered, makes it of value to the territory served.

As it is not possible to enumerate the thousands of items which go to make up our varied stock we only call attention to the nationally known lines we handle. Here are some of them—John Deere Farm Machinery, De Laval Milkers and Separators, James and Oakes Poultry equipment, Myers Pumps, Water Systems, and Hay Handling Equipment, Papec Ensilage Cutters and Hay Choppers, Maytag Washers and Ironers, Westinghouse Refrigerators, Haverly Milk Coolers, Simplex Barn Equipment, Fowler Oil Burners, General Electric and Atwater Kent Radio. I feel a certain pride in selling such well and favorably known merchandise for always with each sale goes not only satisfactory performance but the assurance of dependable repair service during the life of every piece of equipment sold. This is a factor which should be considered at the time of purchase.

This being the seventeenth year in my present business means that continued purchase of seed enables me to determine the most reliable sources of supply. My imported seed is dependable, is true to type of good vitality and high germination: Danish growers have for years been recognized as the most successful producers of many vegetable and flower seed. My stock comes from one of the older and best known of these growers of good seed.

In field seed my Alfalfa and Red Clovers are both Michigan grown have U. S. Government verification and growers affidavit. This is the best possible certification. All field seed is selected with greatest care. My corn comes from one of the largest growers of high grade seed corn, is rack cured and of dependable germination; therefore less seed is required and a more uniform stand obtained.

ALL THE VEGETABLES FOR ALL THE YEAR

Under this heading the New York State College has prepared a list of vegetables which give almost a complete succession of vegetables during the season and for winter storage.

All of these are well known to all who have had the care of a garden and do not need to be enumerated here. It is, however, well to bear these points in mind when planning a garden in order that a

complete succession of fresh vegetables may be had all summer with a stock in the fall that can be stored for winter.

We are always glad to assist in seed selection as well as help in spraying or other garden problems.

BEETS

Egyptian Blood Turnip—Early, turnip shaped, flesh deep blood red.

Crosby's Egyptian—Smooth and round in form, matures very early.

Early Bassano — Medium early; flesh pink and light yellow.

Detroit Dark Red — The standard main crop variety, on account of its extra deep coloring is used extensively for canning.

Big Value—Pkt., 5c; oz., 15c; 1-4 lb., 35c.

MANGELS

Mangels—To produce milk at lower cost grow Mangels for feeding. Yields of 40 to 50 tons per acre are common. They are particularly good for young stock and poultry.

Danish Tarjoe—Larger and somewhat darker in color than Golden Tankard.

Golden Tankard—One of the best yielding and most desirable mangels.

Giant Half Sugar — An excellent cooking beet when small, and attain a size of 10 to 12 in. Very desirable for poultry feeding.

Sludstrup—One of the largest growing and most desirable for stock feeding. Per lb., 65c. All varieties.

LETTUCE

Grand Rapids—One of the best early varieties and if transplanted will produce compact bunches of very tender fringed leaves.

Prize Head — Large, loose heads of finely crimped bright green leaves shaded with brown.

Way-a-Head—An early heading variety in which the center is finely blanched to a rich buttery yellow.

Big Boston—The largest heading variety, particularly desirable for late season growth, as it heads up much better in cool weather.

Romaine or Cos Lettuce—Makes a compact upright growth, leaves blanched white inside, very crisp and tender.

All varieties, pkt., 5c; oz., 15c.

CUCUMBERS

Early Cluster—One of the best and most prolific pickling varieties.

White Spine—Very uniform in size and particularly desirable for slicing.

Fordhook Famous—One of the best of the Burpee's specials, attaining a length of 12 to 14 inches, always firm, crisp and of most delicious flavor.

Long Green—Combines good pickling and slicing qualities.

Davis Perfect—Very dark green, resembling hot-house grown cucumbers, as they have few seeds and are excellent slicing variety.

Big value packet, 5c; oz., 20c.

SQUASH

Giant Crookneck—As early as the common while they attain much larger size.

True Hubbard, Golden Hubbard and Warted Hubbard—Excellent keepers of splendid quality. Big packet value, 5c; oz., 20c; lb., \$1.35.

Delicious—A splendid winter variety, dry, sweet and fine flavored.

BEANS—WAX AND GREEN PODDED

Wardwell, Kidney Wax — An early flat podded variety, one of the best.

Burpee's Pencil Pod Black Wax—Very productive, early and entirely stringless.

Burpee's Brittle Wax — The earliest of all wax beans, round, fleshy pods, of superb quality.

Bountiful—Flat green pods, early.

Refugees—Round green pods, very desirable for canning.

Henderson's Bush Lima—Earliest and most dependable lima.

Big value packet, 10c; lb., 30c.

POLE BEANS

Kentucky Wonder or Old Homestead — Long green pods, very productive.

Golden Cluster Wax—Flat, wide pods, stringless and of excellent flavor.

Early Leviathan—An early pole lima.

Big value packet, 10c; lb., 40c.

ONIONS—BURPEE'S SEED

Prizetaker — Somewhat later but much larger than the Danvers.

Big value packet, 10c; oz., 30c; lb., \$2.50.

Yellow Globe Danvers—The best table and general market variety. Packet, 10c; oz., 20c; lb., \$1.75.

Southport White Globe—One of the best keeping and best yielding white onions. Big value packet, 10c; oz., 30c; lb., \$2.65.

Red Weatherfield—The standard variety, always a desirable cooking onion. Big value packet, 10c; oz., 25c; lb., \$1.85.

Ebenezer or Japanese—Very mild and tender, particularly good keeper.

CELERY

Golden Self-Blanching — The best early self-blanching variety. Packets, 10c; 1-2 oz., 40c.

White Plume—An excellent early sort, but not desirable for keeping. Big value packet, 10c; 1-2 oz., 20c.

TOMATO

Bonney Best—Early, large fruit, solid red and do not crack.

Chalk's Early Jewel — One of the earliest and smoothest light red sorts.

Earliana — The standard early variety and one of the earliest.

Matchless—Best large-fruited main crop tomato.

Ponderosa—A very large, dark red, main crop variety.

Golden Queen—Standard main crop yellow fruit-variety.

Marglobe—An outstanding new variety, particularly disease resistant.

CARROTS

Chantenay or Model—Finest quality, especially desirable for canning.

Danvers Half Long — One of the best market varieties.

Amsterdam Forcing—An excellent quick growing variety.

Large White Belgian — Grown extensively for rabbit feeding.

Big value packet, 5c; oz., 15c.

RADISH

Earliest Scarlet Button—Small, extra early.

Scarlet White Tip—Quick growing and a good market variety.

White Icicle—Very crisp and tender, retaining these qualities much longer than other varieties.

Winter Radish—Round Black Spanish.

Big value packet, 5c; oz., 15c.

TURNIP

Purple Top White Globe—Desirable as a table or feeding variety.

White Rutabaga — One of the best large table varieties.

Yellow Rutabaga — An excellent cooking sort, preferred by many to the white. Either of above, oz., 10c; 1-4 lb., 20c; 1 lb., 75c.

Long White Cowhorn — A long yellow feeding turnip, 1 lb., 60c.

Purple Top Strap Leaf—Good for cooking when small, and a desirable feeding variety. Oz., 15c; 1-4 lb., 35c; 1 lb., 50c.

COST AND QUALITY

My seed is put up in 5c packets, containing as large quantity as any of the commission seed firms, many of whom sell their packets at 10c. Seed is put up as used, from new stocks, thus assuring our trade of fresh seed of high germination and strong vitality.

Comparison of my prices with those shown in other seed catalogues will indicate that the average is decidedly in my favor with the added advantage that you can buy when needed.

The quality of my seed is the best, and will be found dependable in every particular. On account of a constantly changing market with downward tendency I do not quote on field seed. Price is as low as will be found elsewhere on similar quality.

PEAS

Nott's Excelsior—One of the largest pod dwarf varieties and one of the best yielders.

Premium Gem—An improved variety, producing well-filled pods.

Gradus — The best and earliest of the larger growing varieties.

Thomas Laxton—Similar to Gradus, both growing about 2 to 3 feet.

Laxtonian—Largest pod of the dwarf varieties; used extensively as an early market variety.

Dark Pod Telephone—The most desirable later variety.

Bliss Everbearing — Very prolific, continues to bloom and bear longer than most varieties.

Champion of England—Big yielding late variety. All varieties, 25c lb.

Special prices in quantity.

Write for prices by the bushel for field planting.

SWEET CORN

Golden Hummer—A new early yellow variety, larger than Bantam and ten days earlier.

Golden Bantam	per lb., 30c
Black Mexican	per lb., 25c
Early Minnesota	per lb., 25c
Howling Mob	per lb., 25c
Hickok Improved	per lb., 25c
Stowell's Evergreen	per lb., 20c

Either of the latter varieties for field planting at \$4.00 per bushel.

FIELD SEEDS

Our stocks of field seeds have been selected with care, are the best obtainable in every instance and are seeds adapted to this territory. By early and ample purchases we are well prepared to supply customers with highest grade seeds of proven purity and good vitality.

Timothy — Conklin's "King" and Stanford's "Liberty" brands, 99.65 per cent pure.

Clover—Medium Red; United States verification of origin.

Alsike—Imperial brand; highest grade seed.

Alsike and Timothy Mixture—This is clean seed and is sold at a very low price.

Alfalfa—Canadian Variegated and Grimm. The latter Michigan grown, United States verification of origin and all in sealed bags.

White Blossom Sweet Clover — Particularly desirable in a pasture mixture.

Pasture Mixture — We have a special pasture mixture containing the proper proportion of early grasses, desirable clovers and those grasses which will withstand dry weather and late summer conditions.

Special Lawn Mixture—Made up of those grasses which provide a short thick growth, also adapted to shady places. Our mixtures are made up of the best varieties, some of them imported, for producing a thick velvety lawn.

Other grasses which we carry in stock are Red Top, Orchard Grass, Kentucky Bluegrass, European and Creeping Bent, Sheep's Fescue, Wood Meadow Grass, White Dutch Clover, Alsike and White Dutch mixture, making a desirable pasture clover; also Alsike and Timothy mixture.

SEED GRAINS

Early Wonder Oats

Ithacan Oats

Oderbrucker Barley

Alpha Barley

Marquis Wheat

Cornellian Oats

Canadian Swedish Oats

Japanese Millet

Speltz or Emmer

Buckwheat

NITRAGIN SEED INOCULANT

For all clovers, peas, vetch, beans, etc. It pays to inoculate all legumes.

Soy Bean Hay, Cut before beans have ripened, has a greater value in protein and fats than Alfalfa hay.

Soy Beans, cut green and packed with corn for silage, will make a perfect ration of much greater value than corn alone.

MILK AT LOWER COST

Four crops that will help do this are Alfalfa, Mangles, Cabbage, Soy Beans. Either of them together with good silage produced from early maturing corn will reduce the cost of making milk.

Alfalfa seed is low this year only about the price of Red Clover.

COME TO US FOR GOOD SEED CORN

Our principal sales of corn for silage are the Sweepstakes type. Our stock of this superior corn comes to us from one of the largest seed corn

houses, which is equipped with every facility for curing and handling corn. This insures clean seed, properly graded and of dependable germination. The Sweepstakes corn gives a satisfactory green tonnage, ears heavily and reaches a desirable stage of maturity at the time of silage harvest.

We have assurance from our growers that the quality as well as germination of our West Branch Sweepstakes seed will be up to the highest quality of former years.

Lancaster County Sure Crop—This is a Southern Pennsylvania grown, early maturing variety of the Sweepstakes type. It makes a growth of stalk, leaves and ears similar to this variety and matures ears to about the same degree.

Conklin's Early Wonder—An excellent early ensilage variety of the Sweepstakes type put out by E. W. Conklin & Son.

Blue Mountain Ensilage—A superior strain of the large Eureka corn. This seed is Virginia grown, is selected for seed purposes and is the largest growing ensilage corn.

Cornell 11—One of the earliest dent varieties grown in the East.

We handle only locally grown flint corn which is certain to mature in this locality.

In addition to the above we have Smoky Dent, Early Eureka, Leaming and Pride of the North.

CERTIFIED SEED POTATOES

White Rurals—This variety takes the place of No. 9's, Heavy Weights, Rural New Yorkers, Sir Walter Raleighs and some other less known strains, which are practically the same and have been standardized by the New York Potato Growers' Association under the name of Smooth Rurals or White Rurals.

Irish Cobblers — One of the best early White varieties, always has a good market for seed stock.

Rural Russets — An excellent cooking variety and good yielder.

In addition to the above certified seed we always have home grown stock of standard varieties.

Imported and American grown Ballhead and Red. If not already a user—buy at least a part of your requirements of us and get a comparison.

Ballhead, \$3.25; Red, \$4.00.

Our seed is treated.

BERRY PLANTS

Strawberry Plants: Dr. Burrill, Gibson, Senator Dunlap, 35c for 25, \$1.15 per hundred; Black Raspberries, Kansas and Plum Farmer, 75c per doz., \$3.00 per hundred; Columbias, \$1.25 per doz., \$6.50 per hundred. Prices of any other kind of berries or different varieties of the above quoted on request; special prices in quantity.

Grafting wax, in 1 lb. and $\frac{1}{2}$ lb. cakes.

Feed Everything You Grow

with this complete,
balanced diet

VIGORO
Complete plant food

Semesan — A mercurial disinfectant for the control of seed plant and soil diseases, a preventive of many crop diseases, an aid to better germination of seed and stronger vitality of plants.

GALVANIZED WATER TANKS

Round end storage tanks from 2 to 8-barrel capacity or larger. These tanks are made of heavy galvanized iron with angle iron frame and supports, well riveted and soldered. Suitable for use as stock watering or for sap or water storage. Reasonably priced.

Harrow Points—Double wear points can be attached to any harrow tooth. Price, each, 35c. Harrow shoes with bolts, \$2.75 per set.

STEWART CLIPPERS

The new Clipmaster electric for \$18.50; the same to operate by battery, \$20.00.

We have the hand operated machines for \$11.50 and second-hand re-conditioned clippers as low as \$5.50.

We grind clipper knives.

Gleckner 1000 "Thousan" 1000 Style "P"

1 $\frac{3}{4}$ inch Standard Farm Harness from \$38.00 up. Higher in quality, lower in price.

We carry an
extensive line
of collars and
can fit your
horses.

GOODYEAR MECHANICAL RUBBER GOODS

Glide and Klingtite belting in endless and cut length. These belts are frictioned surfaced, will not shrink or stretch and stand up to the work for years of satisfactory service.

We also have Sawyer endless belts and have a large stock of second-hand leather belting in all widths up to 19 inches.

FOR THE DAIRY

B-K Sterilizing Solution, H-T-H Sterilizing Powder, Wyandotte Cleanser, Milking Machine Hose, Milk Scales, Brushes, Ties, Ear Tags, Disinfectants, Stock Food, Kow-Kare, Dr. Naylor's products.

BIRDS AND SUPPLIES

A large assortment of brass and enameled cages and stands, also brackets, bath and feed cups springs, etc. Max Geisler's roller seed, remedies and all bird products. Song restorer, little bird food, bird grit and all bird seed in bulk.

St. Andreasberg Rollers; the finest singing canaries.

BABY CHICKS

For several years we have distributed several thousand chicks from one of the largest hatcheries in the country. This is certified stock and customers have found them true to type, healthy and good layers.

Prices vary to such an extent through the season that we do not quote here. Ask for prices, stating number wanted.

The John Deere trade mark is the best known implement trade mark in the world. It is the certificate of character that represents John Deere prestige—the good opinion of enough people based on actual field experience to make John Deere implements the world's standard for nearly a century.

Believing that one full line is better for purchaser as well as dealer, and believing that the John Deere is the one best line, we sell John Deere implements exclusively. Every implement bearing this well known trade mark is made in a John Deere Factory, and the purchaser is assured of prompt repair service during the life of that implement. You are not buying an orphan when you buy a John Deere product.

With a factory and distributing house in Syracuse the company is in position, and has a disposition to render prompt and efficient service in this territory. As a dealer desiring to constantly improve my business, I increase the company's will to serve by giving the best possible dealer help, employing competent mechanics to set up and service any equipment I sell.

If you could adopt a system of farming that would materially lower your production cost per bushel or per ton you would automatically increase your crop profits. If, in this new system of farming, you have more time to diversify—to care for stock—to properly handle more cattle, hogs, chickens and other live stock, you will step up your net income.

That's precisely the result you will get by adopting a system of farming that includes the John Deere Economy Tractor and power equipment.

It costs less to operate John Deere Tractors—less for fuel, less for repairs and less for general upkeep. They are built to save you money—the big reason why, with the John Deere Tractor and equipment, production costs are usually lower.

Whether you want a tractor for the bigger farm jobs, or for general use including row crop operation, there's a John Deere Economy Tractor that's suited to your particular need.

Cultivating from 25 to 40 acres a day with the John Deere General Purpose Tractor and 3 row cultivator.

JOHN DEERE GENERAL PURPOSE TRACTOR Does All Farm Jobs Well

The John Deere you to handle larger acreage with less help, in less time and at General Purpose Tractor, with 3-row planting and cultivating equipment, will enable lower cost. You have better assurance of bigger crops because you can take full advantage of favorable weather and soil conditions.

You can do the work when it should be done.

JOHN DEERE CORN BINDER

This binder is unusually easy to operate. Power carrier delivers bundles free of horses' path and practically at right angles to standing corn. All-steel, quick-turn tongue truck takes neck weight from horses. Axle of truck is flexibly mounted—wheels hold to uneven ground.

Wide range of adjustment, seventeen roller and ball bearings, perfect delivery of

cut corn to binder attachment, and unusual strength throughout are other important features.

Stiff pole, tractor hitches and bundle elevator can be furnished.

THE NEW JOHN DEERE SPREADER

With the Beater on the Axle and Box-Roll Turn

The New John Deere — the only spreader with the beater on the axle and box-roll turn, is a real money-maker for every farmer who raises live stock. It's easy to load, easy to pull

... it does better work and lasts longer. Users say that it pays for itself many times over during its long life.

Lime spreading attachment, endgate attachment, tractor hitch, and brake can be furnished.

JOHN DEERE RAKER BAR-CYLINDER LOADER

This new combination raker bar-cylinder loader does a clean job of raking on uneven ground. It has a solid steel deck, floating gathering cylinder, 3-point suspension, and fewer raker bars. The floating cylinder combined with slow-moving raker bars save the leaves.

A BETTER WAY TO PUT UP HAY

Model K 3-Roll Papec Chopper

Disregarding the chopper's value as a silo filler, it will pay for itself in one or two seasons by the extra profits that come from feeding chopped hay instead of whole hay. Cows often increase their production 20%. Steers put on 100 lbs. of gain for \$1.40 less feed cost. All feeding waste is eliminated. Your barn holds twice as much hay. The hay keeps fully as well or better. It is much easier to feed out. Call or write for your copy of the Papec booklet describing this new way of handling the hay crop.

REPAIR ITEMS

You appreciate time and labor saving as well as convenience in being able to obtain from stock such items as sections, guards, knife heads, pitman boxes and all wearing parts of mowers, binders and corn harvesters. It is equally convenient if you can obtain quickly, usually from stock, binder canvass, slats, chain links, etc.

MACHINERY REPAIRS

You will find we give careful attention to all repair orders, as we consider this an important part of our business.

We believe the goods enumerated possess especial merit, and as we take advantage of every possible buying discount, are in a position to make favorable prices.

SECOND - HAND GOODS

We always have bargains in Second-Hand Goods. Just now we have a number of 1½ to 4 H. P. engines, also used washing machines.

ALL STEEL GEARS

John Deere All Steel farm truck, strongly made, \$52.50.

All steel trailer truck with pneumatic tires and springs, \$136.00.

VEGETABLE
SEED TRIALS
HORTICULTURE

FERTILIZERS SPRAYING MATERIAL INSECTICIDES

VIGORO

Complete plant food

efficient, economical. We have it in all sizes up to 100 lbs.

Vigoro will do all the manufacturers claim it will, continued use of this high grade fertilizer has convinced me of this. It is convenient,

BONE MEAL—Especially desirable on Roses, flowering shrubs and bulbs. Anything that is permanently located or where forcing is not necessary.

SHEEP MANURE—A quick acting moderate priced fertilizer, gets immediate results, desirable for lawns.

NITRATE OF SODA—For forcing, particularly effective on early vegetables.

SULPHATE OF AMMONIA—A quick acting stimulant producing a slightly acid condition of the soil.

DRICONURE—De-hydrated cow manure—a high grade fertilizer that will not burn and gets quick results. Good for lawns.

ALUMINUM SULPHATE—Used in creating an acid soils for evergreens Rhododendrons, Azaleas, etc.

PEAT MOSS—Desirable for use as a mulch also to lighten soils and provide humus.

COMMERCIAL FERTILIZER—A number of formulas suitable for different garden planting. Good for lawn or garden. Is low in price because of being bought in car lots.

PYROTE — A non-poissonous spray, effective for bugs, lice and aphids. A Pyrethrum spray of great merit.

BLACK LEAF 40—A concentrated nicotine spray effective for lice and aphids.

LIME SULFUR—For dormant spraying of fruit trees and for the control of blight.

BORDEAUX—The most effective material for the control of blight, black leaf, mildew, etc.

DUSTING SULFUR—For use on delphinium, roses, etc., also produces an acid soil condition.

TOBACCO DUST—For the control of lice on growing plants in combination with Sulphur makes a desirable rose and delphinium dust.

NICOTINE PYROX—An all around convenient plant spray.

GRAPE & ROSE DUST—Prevents mildew and black spot, does not discolor foliage.

WHALE OIL SOAP—The ideal spreader for use with insecticides, effective where used alone.

WEED KILLER—For use in paths, driveways, etc., kills all growth. We also have Arsenate of Lead, Paris Green, Slug Shot, etc., also a variety of spray guns.
